

WORLD COMBAT GRAPPLING

PANKRATION RULES

STRIKE – CLINCH – THROW – GRAPPLE

Created By James and Ron Hill, WCGA/USACGA Founders

I. **Description:** World Combat Grappling will look to bring together many systems of combat such as Jiu-Jitsu, Brazilian Jiu-Jitsu, Sambo, Pankration, Hand to Hand Fighting, Karate, Kickboxing, San Da, Muay Thai and more. The rules allow for each style to shine in their respective strengths while evolving to the modern ideals of combat. The plan was to find a link to give athletes from diverse backgrounds a platform to showcase martial skill and warrior spirit in a safe environment. The rules were created with the four main elements of combat in mind (Strike-Clinch-Throw-Grapple).

II. **Athletes:**

A. **Uniform:** All competitors must wear a rash guard or bare chest (Males), and grappling shorts. All shorts must not have pockets or contain any hard material that could be a hazard to self or others. D. **Conduct:** Athletes should carry themselves in a professional manner. Poor conduct may result in disqualification from the competition at the Center Referee's discretion. If poor conduct is minor, but notable, a Yellow Card will be issued. If it is beyond that level, according to Center Referee, and Red Card will be issued, ejecting the competitor from the competition. The following are considered to be in violation of the WCGA/USACGA code of ethics:

1. The use of profanity or aggression towards any person or thing present,
2. Throwing objects,
3. Physical contact with anyone present, other than with opponent, during the match,

Additionally, the coach, knowing their athlete best, should throw in the towel, if he/she feels their athlete is in imminent danger.

A. **Conduct:**

1. The Coach's conduct follows the same rules as the athlete's.
2. The Coach should serve as the reasonable representative of an upset athlete, and not further fuel the fire.

MAX 3 SCORING SYSTEM[©] *Revolutionizing Martial Arts Scoring*

Goals of the System:

1. Create a more comprehensive scoring system, more understandable to the public.
2. Decrease human bias in scoring, when compared to the 10-point must system currently used in Mixed Martial Arts, Kickboxing, and Boxing.
3. Create a more accurate scoring representation of the match.
4. Hold judges more accountable to their match scoring.
5. Foster a faster paced match.

The Mixed Fighting System:

The match scoring is broken down into 2 Major Phases: Standup (Striking, clinch, throws and takedowns), and Ground (Striking and grappling on the ground). These phases generally determine the match winner, but are combined into one, often scrutinized, score in the 10-point must system. In the Max 3 Scoring System[©] each phase is scored separately, giving a deeper look into the decisions made by judges, and helping decrease bias in scoring.

1. The standup phase includes standup striking (Punching, kneeing, and kicking), clinch, throws, and takedowns.
2. The ground phase includes striking and grappling executed while on the ground.
3. Each phase can score a competitor a maximum of 3 points and a minimum of 1 point. The maximum match score is 6 (On a single judges card) if a competitors bests their opponent in both phases.
4. A 3-3 would be scored if neither athlete has done enough to significantly win a phase. A 3-2 would be scored if an athlete beats his opponent, but is not completely dominant. A 3-1 would be scored if an athlete dominates his opponent in a given phase.

Examples:

Competitor A:

Better Standup, Better Ground = 3, 3 = 6

Competitor B:

Lesser Standup, Lesser Ground = 2, 2 = 4

Competitor A:

Dominant Standup, Better Ground = 3, 3 = 6

Competitor B:

Dominated in Standup, Lesser Ground = 1, 2 = 3

Competitor A:

Dominant Standup, Lesser Ground = 3, 2 = 5

Competitor B:

Dominated in Standup, Better Ground = 1, 3 = 4

Competitor A:

Dominant Standup, Dominant Ground = 3, 3 = 6

Competitor B:

Dominated in Standup, Dominated on Ground = 1, 1 = 2
